

Dr Sitsabo Dlamini
BOOK LAUNCH
Gala Dinner

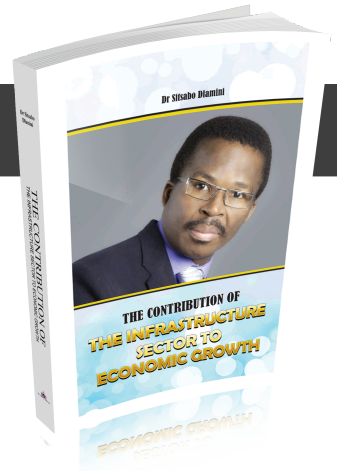

MOVING ON

This book is an inspirational treatise on 'Moving on'. It mobilizes success strategies and theories drawn from some of the greatest leaders that left a mark. The book illustrates that there is something about a vision that it is often characterized with some sense of impossibility. It is essential reading for men and women looking for strategies to turn defeat into stepping stones towards victory, in their pursuit of success. The strategies and theories discussed have been put to practical test by thousands of people from all walks of life.

The contribution of the infrastructure sector to economic growth

Persuaded by the ANC's National Development Plan (NDP) 2030 vision to be the leader in eliminating poverty and reducing inequality by 2030, Dr Sitsabo Dlamini set out to investigate if the infrastructure sector could make a contribution in achieving the ANC's vision for South Africa. Four years of research undertaken by Dr Dlamini has culminated in the book titled 'The contribution of the infrastructure sector to economic growth'. The book proposes specific interventions geared towards the attainment of the ANC's NDP 2030 national vision.

The books will be available for sale at special prices at the Gala Dinner. Be a part of this prestigious gala dinner. God says He knows the thoughts and plans that He has for you. He knows the desires and secret petitions of your heart.
